

Founded in 2016, and headquartered in Quantico, Virginia, Phase II is a SBA Certified Service-Disabled Veteran-Owned Small Business (SDVOSB). With a Mission of helping Veterans and their Families find their second phase of life. Phase II operates in three lines of business to contribute to the security of the United States and our Allies: 1) by introducing innovative solutions to resolve challenges across the entire spectrum of government and commercial (business to business) operations. (2) Providing exceptional services to government and commercial organizations (3) Providing free transition (e.g. retirement/ETS) mentoring and assistance to transitioning service members.

LINES OF BUSINESS:

Professional Services:

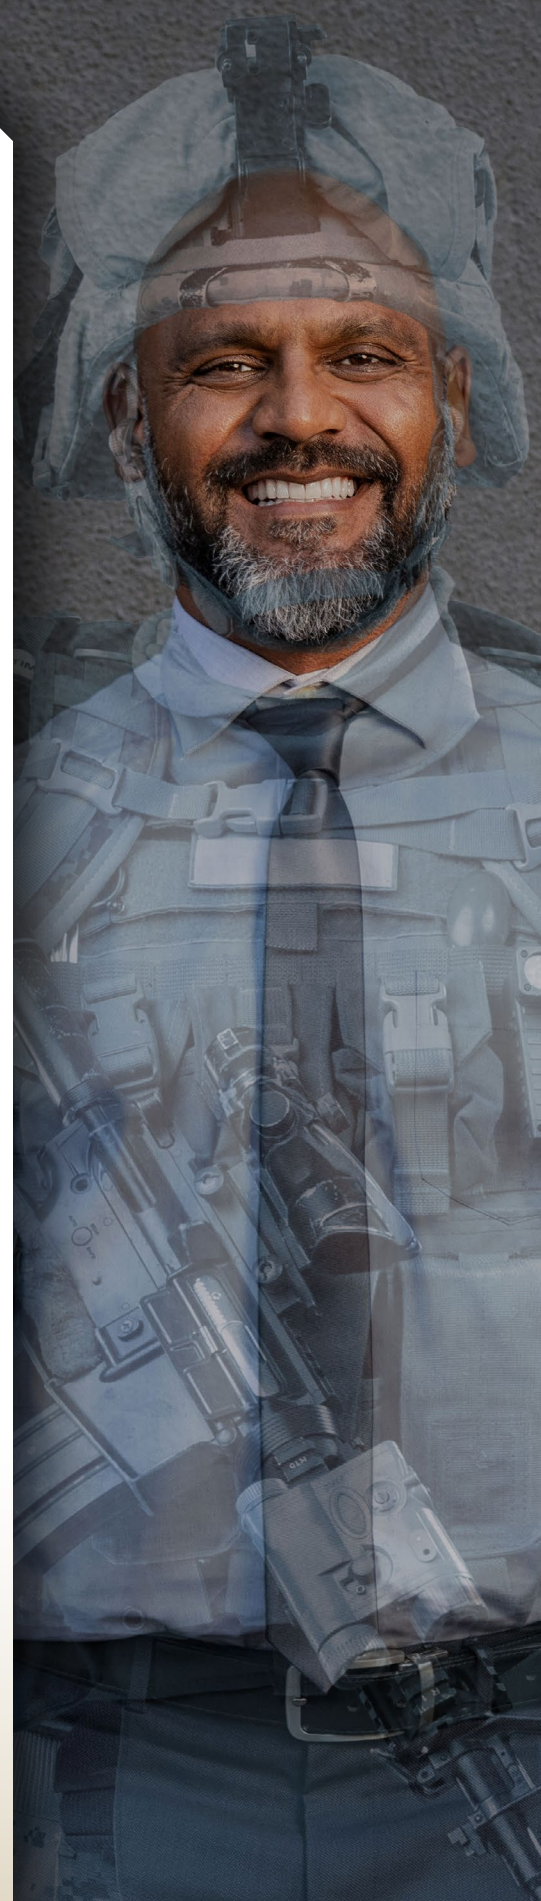

- ▶ **Technical** - Phase II provides IT support in the form of Highly Skilled and Certified Network, System, and Workstation Administrative/Engineering Support Services. Past performance with the US Army (Sep 2019 - Present) and US Air Force (Sep 2020 - Jan 2024).

RIDGEBACK

**NEVER BRING A KNIFE TO A
GUN-FIGHT AND NEVER BRING
AFTER THE FACT DETECTION TO A
REAL-TIME CYBER FIGHT**

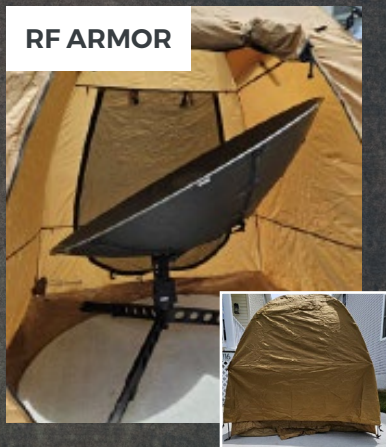

Ridgeback Instantly and quietly captures, reports and visualizes the entire network (IT, OT, IoT) in motion real-time, 24/7; Pinpoints faulty configurations and vulnerabilities not observed by any other tools in real-time; Automatically employs offensive techniques to disrupt attacks and make exploitation painful for the adversary during connection – not 90 to 370 days later

INNOVATIVE SOLUTIONS

Taara and RF Armour deliver cutting-edge technologies for secure and reliable communication. Taara's lightweight laser links provide high-speed, interference-free connectivity with rapid deployment in diverse environments, requiring no spectrum licenses or ground digging. RF Armour safeguards critical RF systems against jamming, direction finding, and EMP threats through advanced shielding and modular designs. Together, these innovations redefine secure, resilient communication in complex operational scenarios.
